craig.bogan@fultoncountyga.gov
(404) 612-7660

BRING business cards · capabilities statement · phone (photos) · tape measure · PPE if you go inside

THREE SITES — 901 Rice St NW campus (~15 mi from Jonesboro)

BELLWOOD ANNEX	ACCOUNTABILITY COURT	JEFFERSON PLACE
1101 Jefferson St NW	1135-A Jefferson St NW	1135 Jefferson St NW

1. AT THE MEETING

- ☐ Sign the attendance sheet first.
- ☐ Get name + email of the buyer and the project manager.
- ☐ Note every verbal change or clarification.
- ☐ Ask that the sign-in sheet and Q and A be posted.
- ☐ Hand cards + capabilities statement.
- ☐ Confirm shuttle / site-access instructions.

ALREADY IN THE ITB

• Lump sum per site + $150,000 owner contingency.
• Phases 1 and 2 priced as one package.
• 5% bid bond · 100% performance & payment bonds.
• GA General Contractor license required, or the bid is non-responsive (or GDOT CoQ if exempt). Trade licenses too.
• 270-day substantial / 300-day final from NTP. LDs $500/day.
• Abate asbestos + lead (and other regulated materials) before demo. Then demo buildings, foundations and utilities; grade to green space. ~32.86-acre site, ~3.30 acres disturbed.
• Quantities and surveys are on BidNet, not the public ITB. Addendum #1 exists — unread.
• Official questions only via BidNet. No Contact Provision (§28).
• Value not published by the County.

2. ASK THESE (if not already answered)

1. GA GC license — can Cascade sub or joint-venture with a licensed GC?
2. Is the asbestos survey in the BidNet package? Quantities to price, or bidder-verified?
3. Lead, mold, and other regulated materials — what is in scope, and are quantities provided?
4. Are the buildings occupied? Utilities on or off? Who caps and terminates them?
5. Schedule, phasing, and start date? Any work-hour limits?
6. Security / badging / escort rules for the jail campus?
7. Disposal and landfill requirements?
8. Confirm bonding (5% bid / 100% P&P) and insurance limits.
9. Any DBE / SBE / local participation goals? (Not stated in the public notice; contract-compliance forms are required.)
10. When will today's Q&A and the sign-in sheet post? Can we return for another site visit? Prevailing wage?

3. AT EACH SITE — look at and photograph

SUSPECTED ACM
Floor tile / mastic, pipe insulation, roofing, drywall. Confirm vs. survey — quantities unknown until BidNet package is read.

ACCESS
Equipment routes, staging, dumpster placement, truck turnaround, fencing, neighbors.

UTILITIES
Meters, entry points, apparent live vs. capped lines, overhead or underground.

STRUCTURE
Size, stories, basement/slab, construction type, foundations to be removed.

4. AFTER THE WALK

- ☐ If pursuing: tap Pursue on the war room board (rj-automations1.github.io/cascade-warroom-7q4x).
- ☐ Send official questions via BidNet Direct only — deadline Thu Nov 12, 2:00 PM ET. Do not email the buyer off-portal.
- ☐ Read Addendum #1 on BidNet (still unread). Decide the GA GC license path (self / sub / JV) before pricing.
